- + % Hemoglobin A1C (HbA1c)
- + Thyroid Stimulating Hormone (TSH)
- + Vitamin B12
- + Triglycerides
- + HDL Cholesterol
- + LDL Cholesterol

“I was impressed with the thorough explanation of the lab results and the helpful resource material. I'm so glad I connected with SoWell Health.”

TIM C.

“This kit changed my life and changed the way I should be looking at my labs. I took one test to establish my baseline, then after a few months of embracing new healthy habits, I took a second test and saw my lab numbers improve. Now I know what I'm doing is working.”

GREG W.

“The kit is special because even though I've seen some of these labs before, when I looked at them with SoWell's interpretation, I learned that fasting insulin is the key and can be an early indicator of disease before I even get sick.”

MELANIE B.

How It Works

01) ORDER YOUR AT-HOME LAB KIT.

We'll deliver everything you need right to your door.

02) COLLECT YOUR SAMPLE

Read the instructions, perform a quick, painless finger prick, and mail your kit back to us.

03) REVIEW YOUR RESULTS

Access our online portal to get your personalized results and analysis.

04) SEE THE BIG PICTURE.

We help you understand how your results are interconnected so you can take steps to get well.

What You Can Uncover

We test eight key biomarkers to expose metabolic conditions affecting your weight. Your results can uncover:

- + Insulin Resistance
- + Metabolic Syndrome
- + Unhealthy Cholesterol Levels
- + Pre-Diabetes or Type 2 Diabetes
- + Vitamin B12 Deficiency
- + Thyroid Conditions
